- Materials of the MOOC: https://sisu.ut.ee/water/avaleht
Audit Collection

Database of audits

The database of audit reports has been designed as a database containing basic information and links concerning audit reports issued by the EUROSAI members (including where available the report itself). The database was launched in 2015 and its maintenance has been entrusted to Goal Team 3.

To search in the database you can use the search filters.

There is an electronic template for uploading audit reports to be filled in for each audit report at your disposal (please see box on the right of the screen, where you can request the registration of your BA's audit reports).

Before the first uploading, registration as an authorized user is needed.

To facilitate your contribution we have prepared a short video tutorial which will show you in more detail how to add new files to the database.

In case of any questions, please contact directly the OT3 team - EUROSAI OT3@eurosai.org
