LATEST UPDATES

[Auditing Climate Change in Copenhagen, Denmark 23-24 March 2010](#)

(30.06.2010) The main topic of the seminar was auditing of climate change. The focus was on practical audit issues such as scope, audit questions, methodology and criteria. The report is now available.

[Regional EUROSAI WGEA meeting at the 13th INTOSAI WGEA meeting, China](#)

(08.06.2010) During the 13th meeting of the INTOSAI WGEA, the EUROSAI WGEA secretariat organized a regional meeting among the participants from the EUROSAI region.

New website

(02.06.2010) The new website of EUROSAI WGEA has now been launched. Please note that the site is still under construction, and will be continuously updated.

LATEST ENVIRONMENTAL AUDITS

[The OAGN investigation into target achievement in climate policy](#)

(16.06.2010) In April 2010 the Auditor General of Norway published an audit report on the implementation of Norway's mitigation policy. The goal of the investigation was to assess goal achievement in relation to Norway's international climate commitments and the authorities' work on implementing the climate policy decisions of the parliament.

[The investigation of the Office of the Auditor General of Norway into the efforts of the authorities to limit flood and landslide hazards](#)

(03.06.2010) Large parts of Norway are naturally at risk of floods and landslides. The risks may increase with climate change. Prevention is an important task for the authorities.
